

The Sixth International Exergy, Energy and Environment Symposium IEEEES-6

July 1-4, 2013

Organized by

Recep Tayyip Erdoğan University (RTEU), Rize, Turkey

First Announcement and Call for Abstracts

IEEEES-6 Symposium

The IEEEES-6 is the sixth Symposium in a successful series of Symposia that covers very essential topics of research for human life. The Symposium provides unique environment for researchers, scientists and industrial leaders to present discuss and share research ideas to improve the efficient use of energy and save environment. Organizing the IEEEES-6 in Rize provides another flavor of environment.

The researchers, scientists and industrial leaders are invited to stimulate scientific discussions through highly advanced lectures in the main topics of the Symposium. In addition, the IEEEES-6 is expected to host more than 200 scientific papers presented by research groups from all over the world.

Topics of the IEEEES-6

The main topics of the IEEEES-6 cover, but not limited to, the following:

- Energy Conservation & Analysis
- Entropy & Exergy Analyses
- Entropy Generation Minimization
- Exergy, Energy and Environmental Modeling
- Exoeconomics and Thermoeconomics
- Hydrogen Generation and Technology
- Fuels & Alternatives
- Renewable Energy
- New and Clean Energy Technologies
- Refrigeration and Heat Pump Systems
- Combustion Technology
- Exergy Accounting & Analysis
- Thermal Systems and Applications
- Air-Conditioning Systems
- Desalination Technologies
- Sustainable Development
- Sustainable Buildings
- Green Buildings
- Thermodynamics Optimization
- Modeling of Energy Systems
- Heat and Mass Transfer
- Industrial Ecology
- Energy Management in Industrial Sectors
- Bioengineering
- Combustion/Gasification
- Process Optimization
- Sectoral Energy and Exergy utilization
- Waste Exergy Emissions

Venue

The Symposium will be held at Recep Tayyip Erdoğan University, Rize, Turkey.

Scope and Objectives

The scope of this Symposium covers Exergy, Energy, Environment and all other related topics. The papers will be presented and discussed during the sessions of the Symposium. In addition, more specialized lectures will be presented by eminent speakers in order to cover the new achievements within the scope of the Symposium. This allows close contact between researchers in this field to discuss problems and ideas of interest.
